

MISHAEL A. P. SELLU

Sierra Leone (Open to relocate)

☎ : 079556468

✉ : mishaelsellu68@gmail.com

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science student with hands-on experience in full-stack web and mobile application development, database design, research data collection, and field surveys. Skilled in Django, React Native with Expo, Firebase, SQL databases, Java, Python, HTML, CSS, and JavaScript. Developed restaurant ordering, university social platform, grocery shopping, school registration, and institutional website solutions. Experienced in digital data collection, ethical handling of respondent information, and producing clear technical documentation. Certified in research ethics and committed to building practical and reliable technology solutions.

EDUCATION

Bachelor's Degree Hon. (In Progress)

Computer Science / Engineering

Institution: Central University

Expected Graduation: 2027

Relevant Coursework

- Data Structures and Algorithms
- Software Engineering
- Database Systems
- Programming (Java, C)
- Digital Logic Design
- Database Management (SQL/MySQL)

RESEARCH & FIELD EXPERIENCE

Field Enumerator / Research Assistant

Innovations for Poverty Action (IPA), Sierra Leone
2026

Key Responsibilities

- Conducted household and community surveys using structured questionnaires.
- Collected both quantitative and qualitative data using smartphones and digital survey tools.
- Ensured accurate recording and verification of responses during interviews.
- Maintained confidentiality and ethical handling of respondent information.
- Communicated research objectives clearly to respondents and community members.
- Reported daily progress, field observations, and challenges to supervisors.

Undergraduate Researcher — Computer Science & Technology Topics

- Conducted research on emerging technologies such as AI applications, cybersecurity, and data structures.
- Analyzed academic papers and compiled summaries with proper citations.
- Explored policy-related research topics including donor-driven economies.
- Produced well-structured research notes and findings.

CERTIFICATIONS

CITI Program Certificate – Research Ethics & Human Subjects Protection

Collaborative Institutional Training Initiative (CITI Program)

Training Covered:

- Ethical conduct in research involving human participants
- Informed consent procedures
- Data confidentiality and participant protection
- Responsible conduct of research

TECHNICAL SKILLS

Research & Data Collection

- Survey administration
- Questionnaire-based interviews
- Field data collection
- Community engagement

Digital & Computer Skills

- Microsoft Word and Microsoft Excel
- Java, Python, C and JavaScript
- HTML, CSS, Django and React Native (Expo)
- Firebase, SQLite, MySQL, Microsoft SQL Server and PostgreSQL
- Git/GitHub, Visual Studio Code, NetBeans and Figma
- Smartphone/tablet data entry and digital survey tools

ACADEMIC PROJECTS

YUMMY Restaurant Web Application

Developed a full-stack restaurant ordering platform using Django, SQLite, HTML, CSS and JavaScript, with authentication, menu search, cart management, dummy payments, order tracking, notifications and a custom AdminHMD dashboard.

YUMMY Restaurant Mobile Application

Built a React Native Expo and Firebase application for account registration, meal browsing and search, food details, cart, ordering, dummy payments, order tracking and customer notifications.

UniConnect - University Social and Study Platform

Designed a university platform using Django REST Framework, Channels, Next.js, PostgreSQL and Redis, featuring study groups, real-time chat, file sharing, a marketplace, an anonymous confession wall, events and notifications.

FreshBasket Grocery Mobile Application

Created an Expo Router grocery shopping application with product categories, search, favourites, product details, cart management, profile screens and responsive navigation.

School Registration System

Developed a Java Swing and SQL-based desktop system for student registration, role-controlled access, academic calendar management, class promotion and student record management.

School Website Development Project

Developed responsive multi-page school websites using HTML, CSS and JavaScript, including navigation, institutional information, galleries and contact sections.

CORE COMPETENCIES

- Strong interpersonal communication

- Attention to detail
- Ability to follow research protocols
- Team collaboration
- Time management
- Adaptability in field environments

LANGUAGES

- English (Fluent)
- Local Sierra Leone languages (Conversational)

Achievements

- Completed multiple full-stack web, mobile, database and research projects.
- Developed authentication, order management, real-time communication and admin dashboard features.
- Known for strong technical documentation, structured problem-solving and attention to detail.

Interests

- Research & Innovation
- Software Development
- Cybersecurity
- Music & Art
- Technology for Social Impact
